Demand-response services have vehicles operating in response to calls from passengers. Service areas may depend on availability. Contact providers directly for up-to-date service boundaries and details of service. Service by demand-response service tends to be for older adults (60+) or adults (18+ with disabilities). Please note demand-response services require advanced booking, and the time needed varies by agency. Often times, 24 to 72-hour advanced notice is required. Contact each agency for their requirements.

Buses which run along an established path at preset times, picking up passengers at designated bus stops. Typically, a deviated fixed route service is characterized by printed schedules or time tables, with designated bus stops where passengers board.
